a Hello from us

Hello, we're Shirley and Wendy.

We're photographers and filmmakers drawn to human connection, thoughtful details, and the atmosphere that makes each wedding feel entirely its own. Based in Leeds, we travel beyond the UK to document weddings in places that mean something to the people bringing them to life.

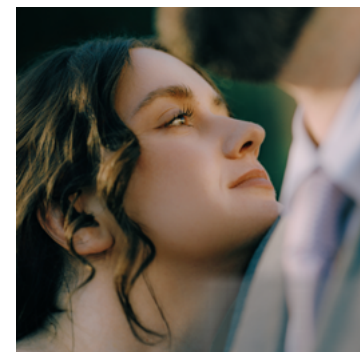

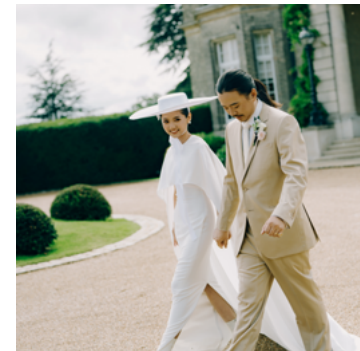

With nearly a decade of experience in wedding photography and filmmaking, our approach has always begun with the people in front of us. We want you to recognise yourselves in our work: your personalities, your relationships, and the way it all felt.

One of the things we love about destination weddings is how they bring us to places we might never have imagined visiting. Unfamiliar light, different rhythms, and unexpected little details encourage us to look more closely and see things afresh. We love discovering a place through the people who have chosen it, and finding out what makes it special to you.

That curiosity is part of Little Forest Studio, which we founded in 2018. Our creative language continues to evolve as we explore light, composition, movement, and playful ideas, while keeping your connection at the heart of what we create.

You'll find quiet, poetic moments alongside photographs full of energy and humour. We leave space for things to unfold naturally, offering a little guidance when it helps, and bringing a creative eye to whatever the day holds.

If you see something of yourselves in our work, we'd love to hear where your plans are taking you.

"As a two-woman team, we bring our own perspectives and a thoughtful, open-minded approach to every wedding. We welcome couples of all cultures, backgrounds, faiths, and identities, taking time to understand the people and traditions that matter to you. Above all, we want you to feel at ease, understood, and free to be yourselves, so the photographs and films we create reflect you and the love you share."

A NOTE ON PRICING

All prices in this brochure exclude flights and accommodation. These costs vary depending on your destination, travel connections, and local hotel rates, so we quote them individually.

We normally ask couples to cover our return flights and two nights' accommodation. Any additional nights or local transport required for your coverage will be discussed with you, and all travel costs will be agreed before booking.

If you'd prefer one inclusive quote, we're happy to arrange this. Simply share your venue, wedding dates, and the coverage you're looking for, and we'll put together a total price including flights, accommodation, and any necessary local transport.

Drone coverage, where included in your package, is subject to weather conditions, venue permission, and local flight restrictions.

OUR APPROACH

RELAXED, WITH GUIDANCE WHEN YOU NEED IT

We're laid-back photographers and filmmakers, and we take our cues from you. If you love being in front of the camera and have your own ideas about how you'd like to move or pose, we're happy to step back and give you space to express yourselves.

If you feel a little unsure, we'll offer gentle, easy-to-follow guidance through simple movements and everyday gestures. As you settle in and we get a feel for your personalities, we might introduce something more playful or explore ideas that feel like you.

You don't need to know how to pose. Whether you enjoy doing your own thing or prefer us to guide you, we're comfortable with either.

WHY WE WORK AS A DUO

We're often asked whether we offer wedding coverage with just one photographer or filmmaker. The investment reflects the overall work involved in documenting your wedding, from planning and shooting to editing, rather than a separate fee for each of us. We share that workload, and working as a duo is integral to how we deliver every wedding.

After nearly a decade working side by side, we instinctively know how to complement each other. We use different lenses and focal lengths to bring two perspectives to the same moment, while also acting as each other's assistant whenever needed.

That might mean helping with lighting or supporting each other throughout the day when capturing both photographs and film. Working this way gives us the flexibility to put our attention where it's needed, helping everything flow smoothly and bringing out the best in what we create together.

AFTER YOUR SHOOT

TURNAROUND TIME

We know you'll be excited to see your photographs and films, so we'll share a sneak peek within two weeks of your session.

Most people receive their full photo gallery within three to four weeks, and their films within two months.

Our agreement allows up to two months for photographs and three months for films. These longer timeframes give us a little breathing room during the summer and other particularly busy periods, so we can give every collection the care and attention it deserves.

HOW TO SECURE YOUR DATE

A signed agreement and a non-refundable booking fee are required to secure your date. We don't require full payment before your wedding; the remaining balance is due afterwards. We understand that planning a wedding means balancing many commitments and supplier payments, and hope this gives you a little more breathing room. Instalment plans are also available - if this would be helpful, please speak with us so we can discuss a suitable arrangement.

If your plans don't quite fit one of our collections, we'd love to hear what you have in mind and put together a bespoke option.

Flights, accommodation, and any necessary local transport are quoted separately and agreed before booking.

In the background, a large stone building is partially visible, and a statue stands near a circular garden bed in the lower right. The scene is bathed in the warm light of late afternoon.

DESTINATION PRE-WEDDINGS

LOOKING FOR A PRE-WEDDING SESSION?

We'd love to capture this part of your story too.

Our destination pre-wedding sessions are primarily offered as full-day packages, giving us time to explore your chosen locations and bring your ideas to life.

Every couple has different plans. If you're imagining a shoot across more than one day, we'd be happy to discuss the possibilities and put together a package around you.

Book your wedding coverage and pre-wedding session with us, and enjoy a discount on your pre-wedding package. Get in touch for more details.

Signature Editing or Bespoke Retouching?

Signature Editing is our standard approach to editing your collection. We select photographs from each part of your shoot, using our judgement as photographers to bring together a varied collection that tells the story of your session.

Each selected image is colour graded in our signature style and includes light skin retouching where needed. We generally leave face and body shapes as they are, although we may make subtle adjustments where an angle, pose, or clothing creates an unflattering line or compression. The overall approach is natural - the photographs you see on our website and social media are representative of our Signature Editing.

Bespoke Retouching offers more detailed adjustments to photographs you select, tailored to your preferences. This option is particularly suited to clients who prefer the more polished finish often associated with East Asian pre-wedding photography. It can include refining hairlines, more detailed skin work, and adjustments to face and body contours. We'll discuss your preferences beforehand to understand the level of retouching you feel comfortable with.

Both options share the same signature colour grading; the difference is the level of detailed retouching.

If your collection includes Bespoke Retouching and you don't feel you need it, please speak with us. We can discuss replacing that part of your collection with additional Signature Edited photographs.
